PARIS, KENTUCKY, TUESDAY, JUNE 30, 1914.

ORGANIZATION OF C. M. THOMAS CLUB EFFECTED HERE.

Friends of Bourbon County
Meet Saturday and Per-
fect Organization.

VERY ENTHUSIASTIC
MEETING HELD.

List of Workers Appointed
For the Twenty Voting
Precincts in County.

The organization of a "Claude M. Thomas Club," for the purpose of furthering the interests of Bourbon County's Congressional candidate in the race for the Democratic nomination, was effected in the County Court room, in the court house, Saturday afternoon.

The meeting was called to order by Temporary Chairman John T. Collins, with Bruce Miller and Swift Champ as Secretaries. These were later made permanent officials.

Chairman Collins, after briefly stating the object of the meeting urged a thorough organization of the county in Mr. Thomas' interest.

A committee composed of R. B. Hutchcraft, Jr., A. S. Thompson, Jno. T. Hinton and the chairman, was appointed to name a committee in each of the twenty voting places in the county to thoroughly canvass the vote and make personal appeals to the voters.

The committee reported the following list of names for workers in the twenty precincts, which was accepted:

Paris No. 1—Judge C. A. McMillan, E. T. Hinton, Robert Lusk, Walker Muir, J. M. Hall, E. B. Hedges, E. M. Dickson, George D. Speakes and W. H. Webb.

Paris No. 2—W. G. McClintock, Whitington Mann, E. F. Prichard, Swift Champ, W. H. Whitley and Dr. J. T. Vansant.

Paris No. 3—Pearce Paton, Bruce Miller, Alex Rice, C. E. Butler, Dr. A. Gilkey, J. S. Wilson, R. B. Hutchcraft, Jr., and J. O. Marshall and Dr. A. H. Keller.

Paris No. 4—Hon. J. T. Hinton, C. J. Lancaster, Dr. F. P. Campbell, William B. Ardery, Jr., W. A. Wallen, John Cain, Ernest Martin, William Grannon and Walter Clarke.

Paris No. 5—L. D. Harris, Jack Woods, John Cain, Sr., John T. Hedges, Harry Baldwin and Swinney Ray.

Paris No. 6—J. W. Thomas, Dr. D. S. Henry, Claude Redmon, William Remington, H. B. Arnold, George Barterton and M. J. Lavin.

Millersburg Nos. 1 and 2—Dr. Burroughs, Dr. William Miller, Thomas McClintock, Ben Thompson, Dr. C. C. Fisher, Bert McClintock, John Leer, Sanford Carpenter, C. M. Best and Ashby Leer.

North Middletown No. 1—Judge H. C. Smith, H. S. Caywood, J. J. Redmon, T. C. Johnson, A. S. Trimble, C. C. Clark, J. Hedge Rash, A. C. Detwiler, Lawrence Mitchell, Calvert Meng, William Stewart, E. B. Allen, Cash Harney, I. S. Reynolds and Roy McCray.

North Middletown No. 2—Gano Hildreth, Ben Woodford, Hon. J. Hal Woodford, C. C. Hadden, A. S. Thompson, Sam Hardin and W. F. Mitchell.

Little Rock No. 1—S. R. Burris, L. A. Cooper, J. E. Boardman, H. H. Crouch, B. F. Hopkins, J. P. Burris, W. B. Crouch, Perry Jewell, Dr. P. L. McClure, R. H. Burris, Tip Hinkle, John Bettis, William Wason, J. F. Young, Ed. Clark, Thomas Dillon and C. H. Dalzell.

Little Rock No. 2—T. J. Redmon, W. P. Wornall, Walter Kenney, Jas. L. Dodge, David Johnson, John Brophy, Sam T. Talbott, Catesby Woodford, Jr., J. G. Redmon and George W. Redmon.

Clintonville No. 1—A. S. Thompson, B. J. Clay, A. L. Stephenson, Ray Cunningham, W. K. Hally, Burnett Parrish, R. S. Darnaby, Ben Stipp and Luther Rice and W. W. Haley.

Clintonville No. 2—J. D. Thompson, James Ingels, Joseph Quisenberry, Henry Power, J. Frank Clay and Chas. Higgins.

Hutchison No. 1—E. P. Claybrook, E. D. Brown, Robert Meter, W. H. Piper, William Meter and John Steele.

Hutchison No. 2—Forrest Letton, Frank White, Charles White W. W. Hinton, James W. Ferguson, M. B. Lovell, John Towles and Louis Musson.

Centerville No. 1—V. W. Ferguson, Joseph Leach, A. D. Leach, Thomas Leach, Spence Menifee and Alf. Barterton.

Centerville No. 2—J. M. Scott, O. P. Clay, J. A. Wagoner, A. P. Adair, D. G. Taylor and John Leach.

Ruddles Mills No. 1—John Marston, Walker Kiser, E. D. Ralls, Isaac Keller, Charles Wilson, Jacob Keller, Jack Cunningham, James H. Fisher, Ed. Keller and Thomas Padgett.

Ruddles Mills No. 2—R. O. Turner, B. B. Marsh, George Current, James

CANNERS' ASSOCIATION INVESTIGATES HUGHES CASES HERE.

The National Canner's Association has made an investigation of the poisoning of the Hughes family at Paris, and in its report states that the family was the victim of impure cistern water or arsenical poisoning, and was not made by canned salmon, as was reported.

A synopsis of the investigation by the Canner's Bureau reads as follows: From Mrs. Zaidie Hughes it was learned that on June 3 she had used one can of salmon in preparing the noon lunch. All the members of the family had eaten of it except Charles L. Hughes, Jr., a baby about thirteen months old, who had been sick for about two weeks.

On June 6, in preparing some of the regular medicine the doctor had left for the baby, she had used water from the cistern in the yard, but prior to this time had used hydrant water in preparing the medicine. Half hour afterward she noticed a change in him, called the doctor, but the child died shortly after his arrival. The baby had not partaken of canned salmon or any other canned food. While the canned salmon had been eaten on June 3, no member of the family was taken sick until June 5 and prior to their illness all of the family had drank of the water from the cistern.

The son, Llewellyn, on returning from his work on June 5, said he had had a headache during the day. He did not make any complaint during the next day, but on the following day she noticed that he drank frequently of the cistern water and was not well. She gave him a dose of salts which he said made him sick in a short time. The doctor called at 11 o'clock that night and he died on June 9. The other son, Raleigh, who was taken sick on June 5 had gone to the cistern in the yard and drank a glass of water from it just before he was attacked. Water from the cistern was used in watering a fern, and shortly after it began to die.

Mr. Hughes, his daughter and mother were interviewed and each stated that in their opinions the illnesses were due to the cistern water.

On examining the cistern it was found that there was a scum on the water, a large number of black bugs and a much larger number of what are called "sow bugs" floating on top.

Dr. J. L. Rankin, the attending physician said in a signed statement that his diagnosis of the illnesses was arsenical poisoning, not ptomaine poisoning, and was not caused by canned foods. He further stated that he was absolutely sure of his diagnosis, although an examination of some of the water from the cistern which had been made at Lexington did not show any arsenic present.

CARD OF THANKS.

The undersigned desires to express his thanks to the firemen, both regular and volunteer, for their excellent work, on Sunday afternoon, in saving his residence, which, while almost wrapped in flames, from the burning stable, looked impossible to save. But for their prompt and splendid work, all would have been lost.

W. H. WHITLEY.

Kiser, John Johnson and Steele Marsh.

The meeting was very enthusiastic and the members of the club are determined to make every effort for the nomination and election of Mr. Thomas. Bourbon County has not had a representative in Congress for fifty years, since the days of Hon. Brutus Curtis, and Senator Thomas' friends say it is time for her to honor herself by electing this worthy son of Bourbon to the position. Upon motion the club stood adjourned subject to the call of the chairman.

GAINING ALL THE TIME.

Mr. Beckham seems to be gaining strength very rapidly, and it looks now like the Democrats throughout the State are more universally for him than ever before.

It seems the people are determined that he shall finally come into his own, which he should have done when Mr. Bradley was elected to the United States Senate.—[Mayfield Messenger.]

BECKHAM SWEEPS FIELD.

PADUCAH, June 29.—Gov. McCreary conferred with Paducah political leaders on his way through here from Murray. The Governor has no organized campaign here and no hope was held out for his success in McCracken County, where the Beckham forces are conceded to have a clean sweep of the field. The Governor did not meet with much encouragement at Murray, either. Men in a position to know estimate that Calloway Coffey will give Beckham more than McCreary and Stanley put together.

BECKHAM IN MONTGOMERY.

MT. STERLING, KY., June 28.—Ex-Governor Beckham delivered his first speech of the present campaign in this city yesterday afternoon at the court house before a large crowd of voters from this and adjoining counties. The address of Governor Beckham was along the lines of his former addresses over the State.

He said he felt confident of success in the August primary. Governor Beckham paid his respects to Congressman Stanley and scored the Congressman for his alleged inconsistency and for reckless statements in his campaign speeches. The Beckham followers were highly pleased at the reception given their favorite.

TWO RIDERS INJURED IN MOTORCYCLE CRASH

Jos. Farmer Seriously Injured
and John Fitzgerald Se-
verely Bruised.

VEHICLE SHAFT
PUNCTURES LUNG.

Farmer Sustains Three Bro-
ken Ribs and Is Taken
To Hospital.

A frightened horse, a driver's carelessness in leaving the animal unhitched on a public street, and a flying motorcycle, were prominent factors Sunday night, in an accident that may result fatally for Joseph Farmer, a well-known young telegraph operator in the L. & N. dispatcher's office at Paris.

Young Farmer, with a companion, John Fitzgerald, riding behind him, was coasting down the incline from Main Street, and when a short distance from Porter & Spencer's saloon, a horse attached to a break cart, standing near the curb, became frightened and swerved across the street just as the flying motorcycle came near. Unable to stop the machine it crashed into the horse, the tongue of the cart striking him in the chest. Three ribs were broken and the lung punctured, and other internal injuries probably sustained. Fitzgerald sustained a sprained wrist and several bruises. Both men were rendered unconscious for several minutes.

They were picked up by bystanders who witnessed the accident, and hurried to the office of Drs. Fithian & Daugherty, where, after an examination of "first aid to the injured," Farmer was taken to the Massie Memorial Hospital. Fitzgerald was able to return home.

Mr. Farmer, with his mother, resides on Scott Avenue, is a brother of Mrs. J. W. Bramlette, of this city.

At the hospital it was stated that Farmer was resting comfortably and would probably recover.

SELLING CHEAP.

If you think we are not going to sell things cheap until July 1, just come in and price what you want.

BUTLER'S,
Opp. Court House.

BASE BALL.

SUNDAY GAMES.

Lexington took both of the double-header games at Lexington Sunday by the scores of 10 to 6 and 5 to 3.

MONDAY.

Paris took the Colts into camp yesterday by the score to 6 to 2.

Paris plays Charleston here to-day. Yesterday's game was largely won through the splendid work of Earl Curtis, of Paris, who was in the box for the Paris team. Curtis pitched a splendid game, the pennant-aspiring Colts getting only four hits off of his delivery. With the rest of the pitching staff as classy as Curtis the Paris team would be enabled to make a better showing.

PORCH SHADES

We sell the beautiful and serviceable "No Whip" Porch Shades. They will please you.

A. F. WHEELER & CO.

(5-1f)

STOREKEEPERS AND GAUGERS ASSIGNED FOR JULY.

The following July assignments of storekeepers and gaugers in the internal revenue service have been made for Bourbon County for July:

G. G. White Company, Paris; C. L. D. Shy, additional; John R. Dagley, Julius Kessler & Company, Paris; E. G. Grigsby, day and bottling; John D. Shy, additional; John R. Gagley, gauger.

OLDEST IN THE BUSINESS.

Lawn mowers sharpened and repaired. Oldest automobile and machine repair shop in the city.

SM'L KERSLAKE & SON,
East cor. Third and Pleasant Sts.
(15m-2mo)

INCREASED L. & N. BUSINESS NECESSITATES LARGE FORCE

As proof that Paris has become an important railroad center, and that the business of the Louisville & Nashville Railroad Company has largely increased since the double tracking of the road has been completed, it was stated Friday by local officials of the road that more trains passed through Paris Thursday and Thursday night than were ever known to pass here within the same length of time. There was such a congestion of cars in the yards that it was necessary to call out three extra forces of trainmen to relieve the situation.

CLOSING EXERCISES OF THE EPWORTH LEAGUE HELD FRIDAY

The Fifth Annual Assembly of the Kentucky Conference Epworth League came to a close last Friday at 12 o'clock, after a most successful session.

The prayer services conducted each morning at 6 o'clock, by Rev. J. O. A. Vaughn, were well attended. Dr. Vaughn held the last service Friday morning. Conference convened at 8:30 o'clock and almost all the morning session was taken up with business, hearing of reports and discussions of plans for future work.

Miss Julia Crutchfield, of Jenkins, Ky., gave an excellent talk on "Missionary Training Schools," and presented her plan to conduct a kindergarten at Jenkins during the coming year. A motion carried that \$100 be given by the Conference towards the support of this work.

Rev. T. W. Watts, Chairman of the Committee on Reports, presented his report which recommended that the Conference adopt certain reports to be used by the individual Chapters. Owing to the fact that the reports of the Chapters presented this year were not made uniform made it impossible to award the Banner. The Leagues of Cynthia and Scott Street, Covington, tied, both securing 5 points, but, as a compliment to the Paris Epworth League, the Banner will be allowed to adorn the walls of the Paris League room until next Conference, when a correct comparison could be made between the reports of the various League Chapters.

Rev. Watts also presented the report of the Committee on the Constitution, which offered several slight changes in the Constitution adopted by the General Conference which met in Oklahoma City last month. After considerable discussion the report was adopted. Miss Julia Crutchfield offered a report on Missions which was accepted. A report was read by Mr. Dennis Snapp on Sabbath Observance and Temperance, which was adopted.

The Conference voted to support the African Mission and \$600 was pledged to that field by the delegates for their respective Chapters in shares of \$19 each.

The Secretary read an invitation sent from the Richmond Epworth League inviting Conference to meet in that city in 1915. The invitation was accepted.

The Committee on Nominations presented their report, nominating the following, who were elected:

President—Rev. J. B. Harris, of Covington.

Secretary—Rev. O. B. Crockett, of Nicholasville.

Treasurer—Mr. G. P. Fisher, of Millersburg.

Epworth Era Agent—Mr. W. N. Collins, of Danville.

Junior Superintendent—Mrs. J. Wood Hudson.

The Constitution was amended by the Conference which provided that the District Secretaries be appointed by the President of the Conference in

GEORGETOWN COUNCILMEN ENJOINED IN BOURBON COURT

J. W. Thatcher, J. W. Thomson, Preston Morris and Leonard J. Hambrick, four members of the city council of Georgetown, came to Paris Saturday with their attorneys and applied to Judge Stout, of the Circuit Court, for an order compelling the city council to take cognizance of a proceeding against James Dunn, James Fluke and Lewis H. Sublett, three other members of the council, growing out of certain contracts alleged to have been made by the three councilmen with the city of Georgetown, contrary to law.

The suit grows out of a contest between the wet and dry factions of the Democratic party in the council. Four of these are dry Democrats, two wet Democrats and two Republicans.

Judge Stout granted the order and issued a mandamus against Mayor Kizuea Stone requiring him to call the council together and to refuse to allow the three councilmen, Dunn, Fluke and Sublett, to participate in their own trial.

stead of their being elected as formerly. Accordingly President Harris appointed the following:

Covington—Miss Violet Renaker, of Cynthia.

Frankfort—Mr. Dennis V. Snapp, of Paris.

Lexington—Miss Lillian Boggs, of Nicholasville.

Danville—Miss Lula Arnold, of Wilmore.

Jackson—Miss Grace Harris.

Maysville—Miss Martha Irvine, of Washington.

Shelbyville—Miss Myrtle Smith, of LaGrange.

It is the duty of the District Secretaries to organize new League Chapters, to maintain interest in their district in League work, and to hold annual district meetings.

The principal address Friday morning was given by Rev. Frank Y. Jackson, of Marion, Va., urefaced by an appropriate hymn and a prayer by Rev. Watts. Rev. Jackson preached from the text in Daniel XI, 32. At the conclusion of the sermon Dr. Jackson conducted a consecration service.

"Blest Be the Tie that Binds," was softly sung and prayer was offered by President Harris. After the benediction by Rev. Vaughn the Conference adjourned.

The Paris Epworth League desires to thank the public in general and all who contributed in making the gathering such a splendid success, especially do they extend thanks to Prof. Albert H. Morehead, who willingly offered his services in directing the music and in producing the splendid music which was a result of his careful training. The Morehead quartette, composed of Prof. Morehead, Messrs. Prentice Lancaster, Harry Kerslake and Wallace Clark, was a special feature each evening and added much to the music program.

NEWS OF MILLERSBURG

—Mrs. C. M. Best returned Friday after a several weeks' visit to relatives at Philadelphia, Penna.

—Joel W. Mock and family, of Ashland, arrived Friday as the guests of relatives and friends here.

—Mrs. Martha Vimont left Thursday for a visit to her daughter, Mrs. W. A. Mupzing, at Maysville.

—Mrs. Harlan Parrish and children, of Lexington, are guests of her parents, Mr. and Mrs. Henry Patterson.

—Miss Anna James McClintock and sister, Miss Ruth, have returned after a visit to Mrs. C. W. Howard, and other relatives in Lexington.

—FOR SALE—A good six-room brick residence on the southwest corner of Fifth and Miller streets. With never-failing water in the yard. This is a good location, convenient to depot, churches and schools. The same can be bought very reasonable. This is a splendid opportunity, as we will give you a bargain. For further particulars, call on or address,

That Weak Back

accompanied by pain here or there—extreme nervousness—sleeplessness—may be faint spells—or spasms—all are signals of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering from that change into middle life which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nerve prescriber for just such cases by a physician of vast experience in the diseases of women.

DR. PIERCE'S Favorite Prescription

has successfully treated more cases in past forty years than any other known remedy. It can now be had in sugar-coated, tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Miss Elizabeth Lordship of Berkeley, Cal., in a recent letter to Dr. Pierce said: "I was completely broken down in health, I was aching and had pains all over my body and was so nervous that I could scream if anyone talked to me, but I had the good fortune to meet a nurse who had been cured by Dr. Pierce's Prescription. I have never had an occasion to consult a physician since—am in excellent health."

Dr. Pierce's Pleasant Pellets regulate stomach, liver and bowels—sugar-coated, tiny granules

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

A FOOL AT THE WHEEL.

The fool at the wheel of the automobile is full brother to the fool who rocks the boat. Many persons who have experienced the discomfort of being passengers in motor vehicles driven by persons fond of displaying their recklessness will view with pleasure the result of a damage suit filed in Pennsylvania to recover for the death of a girl who was a passenger upon a recklessly driven motor-cycle, says the Courier-Journal.

The evidence showed that the motorcyclist invited the girl to ride with him. She accepted the invitation, and he "speeded up" until the machine was traveling at a dangerous gait amid the shifting obstacles of a crowded street. A collision occurred and the passenger was killed. The driver shared her injuries and subsequently died. A suit against his estate to recover damages resulted in a verdict for the plaintiff. It was contended by the plaintiff that when the driver of a vehicle invites another to become his passenger he implies upon himself the duty of operating the machine in a safe and proper manner to protect the passenger from other than the ordinary risk of traffic.

The proportion of sensible motorists rapidly increases. There are now-ads far fewer reckless drivers in proportion to the total number of drivers than there were when motoring was a novelty and distinctly a sport. There are nevertheless, a good many drivers who take passengers without feeling obliged to exercise reasonable care in behalf of their safety. Such drivers should be made to pay damages when their negligence causes the injury of their passenger.

FOR AN IMPAIRED APPETITE.

To improve the appetite and to strengthen the digestion try a few doses of Chamberlain's Tablets. Mr. J. H. Seitz, of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." For sale by all dealers. (June)

PROMISED TO KILL WIFE IF MEXICANS ENTERED HOUSE

A dramatic recital of the escape of himself and wife from death by a Mexican mob in Monterey, Coahuila, Mexico, was given at Oakland, Calif., recently by John C. Allen, Deputy United States Consul at Monterey.

Allen said he and his wife withstood a four days' siege behind the stone walls of a crude Mexican house in Monterey after the receipt of the news of the American occupation of Vera Cruz, while a frenzied mob surged outside crying "Death to the Gringos."

"We lived a lifetime in those four days," said Allen. "The mob was crazy with hatred, and if they could have broken into the stone house we would have been killed."

"My wife made me promise to kill her and then end my own life if they broke through our barriers. I had no firearms, nothing but a butcher knife, but I got it ready, for I should never have allowed her to fall into their hands alive."

At the end of the fourth day the Federal troops were driven out by the constitutionalist army under General Gonzales and the Allens left their "fortress" in safety.

GET RID OF YOUR RHEUMATISM.

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhard, Homer City, N. Y., writes, "Last spring I suffered from my arms and shoulders. I got a bottle of Chamberlain's Liniment and the first application relieved me. By using one bottle of it I was entirely cured." For sale by all dealers. (June)

KANSAS GOVERNOR SHOWS PRISONER UNUSUAL MERCY

The Governor of Kansas recently granted a prisoner in the State penitentiary a parole of sixty days that the man might go home and harvest his wheat crop. The prisoner was sent up, it appears, for five years for selling mortgaged property. Before he was convicted he had put in a big wheat crop and as it promised a heavy yield, and his family was in financial distress, he was permitted by the Governor to go home to take care of the grain. This is a most unusual case of executive clemency, but it shows clearly that Kansas has a Governor whose heart is in the right place.

ARE YOUR KIDNEYS WELL?

Many Paris People Know the Importance of Healthy Kidneys.

The kidneys filter the blood. They work day and night. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles.

If you are nervous, dizzy or worn out—Begin treating your kidneys at once. Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Winchester testimony.

A. G. McCauley, 134 S. Maple St., Winchester, Ky., says: "I had pains through my kidneys and the kidney secretion were scanty and painful in passage. On the recommendation of a friend, I got a box of Doan's Kidney Pills and the result of their use convinced me of their merit. I now gladly confirm what I said about them before."

The above is not an isolated case. Mr. McCauley is only one of many in this vicinity who have greatly endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. McCauley had. 50c at all stores. Foster-Mildurn Co., Props., Buffalo, N. Y.

ONLY ONE ENTIRELY SATISFACTORY.

"I have tried various colic and diarrhoea remedies but the only one that has given me entire satisfaction and cured me when I was afflicted is Chamberlain's Colic, Cholera and Diarrhoea Remedy. I recommend it to my friends at all times," writes S. N. Galloway, Stewart, S. C. For sale by all dealers. (June)

WHERE'S THE HARM.

Because he had taken snap shots of women wearing skirts made to conform with extreme freakishness of present-day fashions, a young man of Charlotte, N. C., was fined \$25 one day recently. What the specific charge against him was is not stated, and one may wonder what it may have been. From the statement that the pictures were taken while their wearers were boarding street cars it may be vaguely inferred that somebody's modesty was shocked. But if that which was depicted was permissible in public, why was the photographing of it an offense?

Nervous?

Mrs. Walter Vincent, of Pleasant Hill, N. C., writes: "For three summers, I suffered from nervousness, dreadful pains in my back and sides, and weak sinking spells. Three bottles of Cardui, the woman's tonic, relieved me entirely. I feel like another person, now."

TAKE

Cardui

The Woman's Tonic

For over 50 years, Cardui has been helping to relieve women's unnecessary pains and building weak women up to health and strength. It will do the same for you, if given a fair trial. So, don't wait, but begin taking Cardui today, for its use cannot harm you, and should surely do you good. E-72

HUERTA'S DAILY ROUTINE IS A ROUND OF SALOONS.

(New York World.)

Those having other than secret business with General Huerta in Mexico City have learned better than to seek him in his office in the Palace. He has preferred the cafes for his conferences and interviews. Several of these resorts have enjoyed his favor, to each of which has been assigned its special function as the daily rounds proceed. The routine became so regular that interruption from any cause instantly started rumors that Huerta had taken flight.

His practice has been to start the day with a drink of cognac, his favorite tipple, in the Laze Mercantile, about 8:30 o'clock in the morning. That is too early an hour for anything except preparatory seasoning for the day's work, and no one ventured to disturb Huerta there with affairs of state. An hour or so later he drives to the Chapultepec Cafe, to give audience to diplomats who wish to see him. That has been the only place where the foreign representatives were welcome. Cognac accompanies all the conferences there, and Huerta has been accessible to diplomats until about midday.

The Cafe Colon, in Avenue Reforma, is his next stopping place. He drops in there after luncheon and passes an hour or so sociably or in transacting such business as government officials bring to him, with cognac accompaniment. That refreshments equips Huerta for whatever tasks have been reserved for transaction in private. If business is done in the afternoon hours it is so confidential that nothing concerning it ever gets outside.

By evening Huerta appears at the Globo, known otherwise as the Dulceria Parisienne, in San Francisco avenue, looking habitually as if he had enjoyed a good rest. The attendants there serve cognac to him from a teapot, and from 6:30 o'clock in the evening until 8:30 he receives newspaper correspondents and other writers, and affably answers their questions. Following this visit, Huerta usually makes a second visit to the Colon, where his Ministers, editors and official and other persons have easy access to him through the evening.

The Colon is his regular resort, and often he may be found there until 2 o'clock in the morning, although he now and then drops in at the Circulo Asturiano, the exclusive Spanish club in Tecuba street.

Huerta has kept up this round of cafes ever since he came into power in Mexico City. He is not at all reluctant to show himself in public and mingle in mixed company, acting sometimes as if he thought that course his best protection. Probably the most important affairs with which he must deal are not settled in such public places, but Huerta would be quite willing to have the public suppose him ready to talk in the open upon any subject, priding himself on being "just a plain old Indian" and a model Democrat. He makes a practice, in these places, of delivering himself of his purpose to stand firm to the last.

HOT WEATHER TONIC AND HEALTH BUILDER.

Are you run down—nervous—tired? Is every thing you do an effort? You are not lazy—you are sick! Your Stomach, Liver, Kidneys, and whole system need a Tonic. A Tonic and Health Builder to drive out the waste matter—build you up and renew your strength. Nothing better than Electric Bitters. Start to-day. Mrs. Jas. Duncan, Haynesville, Me., writes: "Completely cured me after several doctors gave me up." 50c and \$1.00, at your druggist.

Bucklin's Arnica Salve for Cuts.
(June)

MAN WHO PERSONALLY KNEW VILLA WHEN HE WAS PEON.

A man who recently had occasion to interview President Wilson says that never in all his experience was he so amazed as at the manner in which President Wilson, eulogized Villa.

"The President seems to have the utmost confidence in Villa and praises him in the strongest terms," he stated, "and this is hard for anyone to understand who has been in Mexico. 'I personally knew Villa when he was nothing more than a mule team driver at one of the oil camps, and have followed his actions closely ever since. He is a typical Mexican peon, and anyone who knows anything about Mexico knows what a peon is. Let Villa and his followers get into power in Mexico and it will take all the strength of America's armed forces to straighten things out. 'Secretary Bryan thinks Mr. Villa is a very fine man, indeed, because he neither drinks or smokes.'"

THE REASON A GEORGIA TOWN VOTED FOR SALOONS

A Georgia town has voted in favor of saloons and here is the reason given by a citizen: "If we are going to stand for our women folks wearing shadow skirts, and slit skirts, and transparent skirts, and our younger women learning to dance the boll weevil, the Texas Tommy tango, the bunny hug, the bear dance, the half center, the buzzard flop, the puppy huddle, and so on down the line, then the men folk might just as well have their saloons and the whole push go to hell together."

SOMEBODY'S CONSCIENCE IS GIVING HIM TROUBLE.

Secretary of Treasury McAdoo received \$6,300 contribution to the conscience fund Tuesday from somebody in Burlington, Iowa. There was no clue to the identity of the sender. Nearly half a million dollars has found its way back to the government in that mysterious fashion.

Sixty dollars was the cost of eau de cologne asked by the city of Toulouse in preparing for a visit from President Poincare, of France.

DOING THEIR PART.

The Jew is still doing his part in every phase of our national life. One of the 19 boys killed in the capture of VeraCruz by American marines, was Sam Meisenburg, a young Jew of Chicago. When his body was brought back to Chicago for burial, the crowd at the funeral was so great that a panic was created in the city hall and many people were injured in the crash.—[Harrodsburg Herald.

INDIGESTION AND CONSTIPATION

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers.

(June)

To keep pins clean a new receptacle covers them with a glass dome, which, on being turned, drops a few at a time upon a tray.

ANNOUNCEMENTS.

We are authorized to announce Hon. C. M. Thomas as a candidate for the Democratic nomination for Congressman at the August primary, to be held in this county on Saturday, August 1, 1914.

STOCK AND FARM NOTES.

The finest lot of lambs that was ever raised in Lincoln County, Ky., is now being delivered at good prices.

Glitter Bros., Eminence, Ky., report the sale of a 4-year-old 1 Shand black, registered jack, extra quality to the United Fruit Co., of Port Limon, Costa Rica.

Despite the rush of wheat harvest, Kansas farmers were obliged to quit the fields during the afternoons on account of the excessive heat and many prostrations were reported.

Bonta Bros., Harrodsburg, Ky., began cutting their 800 acres of wheat Monday of last week and put in ten binders to do the job. It is believed that the wheat will average from 25 to 40 bushels an acre.

The members of the Warren County, Ky., Peach Growers' Association met in Bowling Green last Monday and gave an order to a Jacksonville, Texas, firm for 5,000 shipping baskets.

Glitter Bros., Eminence, Ky., sold two registered Holstein bulls, eighteen months old, well bred and good ones to the Postoli Land and Sugar Co., of Cuba.

For violating the law that prohibits the confinement of live stock for more than twenty-eight hours without unloading for feed, water and rest, four more railroads have been fined this month a total of \$3,000, and in some instances additional costs, according to recent announcements of the United States Department of Agriculture.

Dr. S. F. Musselman, of Cynthiana, Ky., has been elected State Veterinarian by the State Live Stock Sanitary Board, at Louisville. It is a new office created at the last Legislature, to administer the live stock laws on a new and more rigorous basis, and carries with it the handsome salary of \$2,000 a year and traveling expenses.

The Bowling Green, Mo., fair has been called off by the Board of Directors on account of crop conditions and the dry weather. The dates were August 18 to 21.

The Suckling Mule Colt Stake and the Capital Jack Stake at the Montgomery County Fair at Mt. Sterling, July 21-25 which are among the largest and stakes ever offered at a county fair for this class of stock, have both been filled. The mule colts will be shown the first day and the jacks on the second; \$300, divided into six monies, is hung up in the suckling mule class and \$250 divided into five moneys in the jack class.

A large number of the farmers of Warren County, Ky., do not propose to sell their wheat for seventy-five and eighty cents a bushel, but rather than do so, will after it is threshed run it through a machine that cracks it and will feed it to the hogs. In that way the farmers say they will get \$1.25 and \$1.50 for it.

DEATHS

DOW.

The body of Mr. Ellsworth Dow, who died in Carlsbad, New Mexico, did not arrive here Friday, as expected, owing to delays and missed railroad connections enroute. The funeral was held Sunday afternoon.

MCKINNEY.

Mrs. Geo. N. McKinney, widow of former Patrolman Geo. N. McKinney, of Paris, who was killed in the L. & N. yards in this city five weeks ago, died at the home of her daughter, Mrs. J. W. Brandenburg, in Winchester, Sunday. Mrs. McKinney was sixty-four years of age. She is survived by four sons—D. H. McKinney, ter, Sunday. Mrs. McKinney was McKinney, of Paris; two daughters, Mrs. Edward Brown, of Bedwell, and Mrs. Brandenburg.

The body will arrive here on the 3:30 train from Winchester, and the burial will take place in the Paris cemetery. The pall-bearers will be Dr. F. M. Faries, E. B. January, C. P. Mann, Jas. Moreland and Fred Link.

NICHOLS.

Mrs. Thos. Nichols, aged 44 years, died Sunday morning at his home on the Bethlehem pike, as the result of pneumonia, following an attack of typhoid fever, from which he had just convalesced.

Mr. Nichols was a son of the late T. J. Nichols, who was killed several years ago in a railroad accident near Muir. He is survived by his mother, Mrs. Julia Nichols with whom he lived; one sister, Mrs. Forrest Letton, and two brothers, John Nichols, of Bourbon, and S. Kenney Nichols, of this city.

The funeral services were held at the grave in the Lexington Cemetery yesterday afternoon, conducted by Eld. W. E. Ellis, of the Paris, Christian Church. The pall-bearers were Robt. Meteer, Custis Talbot, C. V. Higgins, Marion Hall, W. S. Smith and Forrest Letton.

BROWN.

A telegram was received Saturday by Mr. John Brown, of South Main Street, announcing the death of his son, Robert S. Brown, which occurred at St. Joseph, Mo. Mr. Brown was about fifty years of age, and formerly lived in this city, but in early life went to Kansas City, where he took a prominent position in the big dry goods house of Bullene, Moore & Emory, thence to St. Joseph, where he has resided for the past twenty-seven years. The last two years of his life were spent in Florida and Minnesota in a vain effort to recover his health.

In 1912, Mr. Brown was married to Miss Ella Carty, of St. Joseph, who survives him. Besides his wife and father, Mr. Brown is survived by a brother, Mr. Geoffrey Brown, of this city.

The body reached Paris Sunday morning, and was buried from his father's residence yesterday morning at 10 o'clock.

CARD OF THANKS.

The depositors of the Geo. Alexander Bank, desire to extend their thanks to Rev. Father Eugene DeBruyn, for the use of the Catholic Club Rooms on last Friday.

MATRIMONIAL.

ANDERSON—FOSTER.

Prof. L. C. Anderson and Miss Maud Foster, teacher at K. C. and B. College, North Middletown, last session, who are now spending their vacations at their homes in Lebanon, Indiana, will be married July 22d. They will return in September and make their home at Mrs. Dana Bean's in North Middletown. They will both teach again in the K. C. and B. College.

"WHAT DO YOU KNOW?"

"DON'T KNOW A THING."

When the editor of a country newspaper starts in on Monday morning to get up something for his paper in the way of interesting local news and finds after nosing around that nothing has happened in the town or community that he can frame a write-up of, and nobody phones in any personal or local news, and every fellow, he talks to says, "I don't know a thing," and his liver is not working and he feels as though he had just as soon take a round with Huerta as to go to work, that's the time he would like to turn the job over to the Smart Aleck who thinks he could get up a better paper than the editor and not half try.

RUSSIA, JAPAN AND MEXICO ALLEGED TO BE AGAINST U. S.

The Novo Vremya, of St. Petersburg, intimates that a triple entente is being negotiated between Russia, Japan and Mexico against the United States. One article deals with the recent visit of General Soukhomlinoff to the Far East and hints, as a result thereof, at the possibility of an entente between Russia and Japan.

"MAD KING'S SUIT" WORTH \$20,000, NOW IN AMERICA.

The New York customs house has in its temporary possession a suit of clothes and chapeau that would make Joseph's coat look like a comic opera costume. Custom officials took it from the Red Star liner Zealand to the appraisers' stores. It is decorated with gold, silver and pearls and is valued at \$20,000. Miss Anita Koeck brought the suit from Stuttgart. She has affidavits to prove that it was made to order for the mad king of Bavaria, who died last year. She says she had hoped to sell the suit to the late J. Pierpont Morgan. She now hopes to place it on show in Fifth avenue. There are said to be 8,000 genuine pearls, set in the solid gold and silver embroidery on the coat. It is probably the most valuable suit of clothes ever imported.

"PUSILLANIMOUS!"

Former U. S. Senator J. B. Foraker severely criticised the attitude of President Wilson in the Mexican situation at the G. A. R. encampment at East Liverpool, Ohio, Wednesday evening. He said the President's conduct was "nonsensical" and "pusillanimous."

OLD BUTTON.

Silas Brock, of Fort Worth, Texas, who is visiting his cousin, ex-Sheriff W. O. Brock, has a copper button in his possession which is priceless to him and is perhaps one of the most valuable relics in the United States. It was taken from the coat of Lord Cornwallis on the 19th of October, 1776, when the English General surrendered 8,000 troops at Yorktown to the American soldiers commanded by Washington. The button is highly prized by Mr. Brock, and has been handed down by succeeding generations of the Brock family. Brock is the youngest of the family of Johnstine Brock, who died near the Kentucky River in Clark County, April 29, 1870. At the time of his death the senior Brock was 95 years old. The old gentleman was born in Capbell County, Va., April 8, 1776, three months before the Declaration of Independence. Johnstine Brock came into possession of the button and the coat from which it was taken, fourteen years after Lord Cornwallis surrendered. Just before the surrender Cornwallis turned over to a trusted servant the servant's faithfulness in looking after the general's clothing. Johnstine Brock married Francis Shackelford December 2, 1798. She was the daughter of Rev. William Wright, of Virginia. She died August 13, 1863, over 90 years of age. To the above union seven children were born, five of whom were still living at his death, the oldest son being 71 years old, the youngest 55. Johnstine Brock lived to see his grandson, Simpson W. Brock, a father, making the fifth generation. He was an ardent Jackson Democrat. Johnstine Brock was a great-grandfather of Sheriff Brock, and came here from Virginia in his early manhood.—[Winchester Democrat.

"NO FREE PRESS."

Members of the Virginia Press Association were in Washington, Saturday on a sight-seeing trip after their annual banquet in Alexandria, Va., which was featured by an address by Vice President Marshall. The Vice President asserted that there was no free speech, in that no man can say what he pleases without paying the price.

If you must have a pet, get a pig. Dr. D. T. Quigley, of North Platte, Neb., says they're healthier than any other pets.

A pistol which looks like a watch, the barrel being in the stem, has been patented to be used against a highwayman when he demands the surrender of valuables.

Painless extinction of old men was predicted in London by the vicar of Carlsbrook, Tuesday. They are of no use, he said, but old women are good to mind children or darn socks.

Our Great Semi-Annual Clearance Sale

NOW GOING ON.

Such Savings As Are Offered By This Clearance Sale Are Extraordinary.

Coming in the very heart of the season, this great Semi-Annual Sale is of supreme importance to every woman in and near Lexington. The low prices it offers would be remarkable at any time, but they are particularly so at this time of the year. This is the sale that is always anticipated by our patrons in Lexington and all over Central Kentucky. They have come to recognize it as the one big value-giving event of the season.

Spring and Summer merchandise in highest demand is included in this sale—the very goods needed for present and future use—and the prices are substantially less than equal quality sells for regularly in Lexington.

There are no words strong enough for us to use in urging you to come to this Semi-Annual Clearance Sale.

RECEIVER'S SALE OF SHOES.

A tremendous slashing of prices on shoes of the stock of Geo. McWilliams, beginning Thursday, June 2, at 9 a. m. J. W. Davis & Co.

PARTNERSHIP BUSINESS GOES INTO VOLUNTARY LIQUIDATION

The Bourbon Bank and Trust Co. is named, in papers executed by Geo. McWilliams, the shoe man, as agent to take charge of and wind up the business of the firm. The act is one of voluntary liquidation, to close out an existing partnership. The work of invoicing is now going on.

LEAVE FOR EXTENDED VACATION IN THE NORTH.

Mr. and Mrs. John Christopherson, children and nurse, of North Middletown, leave on their vacation June 29. They will go to Wisconsin in their new Studebaker car, to be gone about three weeks. Mr. Christopherson will visit Minneapolis before his return and hopes to do some real fishing in the chain of lakes in Northern Wisconsin.

L. & N. WOKMEN ERECT- ING BLOCK SIGNAL SYSTEM

A large force of workmen were engaged last week in the building of foundations on the line of the L. & N. in this city, for the new block signal system which is being installed by the company. The work here is being done under the supervision of General Foreman B. Hizar, of Louisville. The system will be built from Cincinnati to Livingston, and on to Knoxville.

NO BOURBON COUNTY FAIR WILL BE HELD THIS YEAR.

A called meeting of the Directors of the Bourbon Agricultural Society was held at the Court House, Saturday afternoon to consider the matter of holding a fair on the society's grounds this fall. After discussion of conditions existing in the city and county, and in view of the lack of interest manifested by the public, it was decided, following a motion made by Mr. John T. Hinton and seconded by Mr. John T. Collins, upon a unanimous vote of the Directors, to hold no fair this year.

REBEIVER'S SALE OF SHOES

Of the entire stock of Geo. McWilliams, starts July 2, at 9 a. m. Bourbon Bank & Trust Co.

FAREWELL SERVICE TENDERED RETIRING Y. M. C. A. SECRETARY.

At the Baptist Church, Sunday morning, the pastor, Rev. O. R. Mangum, preached on the subject "Timeliness and Beauty."

At night there was a short sermon, after which there was a farewell service for Mr. Charles M. Griffin, Y. M. C. A. Secretary, who leaves for Jacksonville, Miss.

Mr. Henry Power spoke on behalf of the Y. M. C. A.; Mr. C. O. Hinton for the Sunday School; and the pastor for the church.

Mr. Griffin gave a parting message to the people in Paris.

SUNDAY FIRE DESTROYS STABLE AND THREATENS RESIDENCE

Sparks from a passing L. & N. engine in the Duncan Avenue cut Sunday afternoon is the supposed origin of a fire that destroyed a large stable in the rear of Mr. Wade Whitley's residence, on Vine street. Sparks from the burning stable set fire to the garage of Mr. Arthur Hancock, adjoining the Whitley stable, but prompt action saved the building. A high wind was blowing at the time, and only hard and excellent work by the fire department in the face of the gale saved the Whitley residence. Sparks from the fire fell on neighboring houses but were soon extinguished without doing any damage.

Fire, wind and lightning insurance. Thomas & Woodford.

DEPOSITORS OF ALEXANDER BANK HOLD MEETING.

About one hundred depositors of the George Alexander State Bank, closed some weeks ago by order of the State Banking Commissioner, held a meeting at the Catholic Club Rooms, on High Street, Friday afternoon, pursuant to a call signed by fourteen of the members and attorney John Williams, of this city, who has been appointed by State Banking Commissioner T. J. Smith, to look after the interests of the creditors of the bank, acted as chairman and spokesman of the meeting, and as a result of his remarks a committee, composed of J. R. Stivers, J. W. Larkin and J. P. Wetherall, was appointed to meet here this week in conference with Judge John M. Lassing, who also has been appointed by the State Banking Commission, in order to decide what action it will be necessary to take against the directors of the bank in order to recover their losses, and when such action shall be taken, if at all.

—Mrs. Bettie Mitchell, of Chattanooga, is visiting Mrs. Bettie Brown, on Cypress Street, and other friends.

—Miss Ola Rogers, of Mt. Sterling, has been a guest several days of her cousin, Mrs. Frank Byrd, in this city.

—Mayor Kinze Stone and Editor F. M. Thompson, of the Georgetown News, were visitors in Paris, Saturday.

—Mrs. C. O. Hinton and little daughter have returned from a visit with Mrs. James McClure, at Boston, Mass.

—Mrs. Kate Chambers is suffering from the effects of a fall sustained a few days ago at her home on Duncan avenue.

—Misses Louise Steele and Ann Wilson have gone to Maysville for a visit at the home of Mr. and Mrs. Henry Pogue.

—John Lockhart Davis, the handsome little son of Mr. and Mrs. John F. Davis, is quite ill at their home on Vine Street.

—Prof. W. O. Stackhouse, former teacher in the Paris High School, was a visitor in Paris Sunday, as a guest of Prof. J. S. Johnson.

—Miss Jessie Mae Ockerman visited Misses Mabel and Lulah Lyons, in Lexington, this week, and attended the Hawkins-Young wedding Thursday evening.

—Mrs. Margaret McDermott and daughter, Miss Nora McDermott, and grandson, Master Fred McDermott, left Saturday morning for Louisville, where they will make their future home.

—Mrs. Amanda Spurgeon and two children, of Haughville, Ind., and Mrs. Laura Brammel and two children, of Maysville, are guests of Mr. and Mrs. H. P. Brammel, near Paris.

—Mrs. S. W. Wills, of Winchester, was the guest of her sister, Mrs. C. A. McMillan, on Stoner Avenue, several days the past week.

—Mr. and Mrs. Frank Kidd, who have been guests of Miss Mary Layton, on South Main Street, have returned to their home in Wichita, Kans.

—Mr. and Mrs. Chas. A. Duncan and little daughters, Misses Ann Rutherford and Katherine Duncan, have gone to Nashville, Tenn., for a visit with Mr. and Mrs. Henry Duncan.

—Dr. and Mrs. Trapnell, of Point an Rocks, Maryland, are at the bedside of Mrs. Trapnell's sister, Mrs. Therese Hibler, who continues seriously ill.

—Miss Eleanor Lytle has gone to Maysville, to visit her grandmother, Mrs. J. V. Lytle. She will spend several weeks in Cincinnati visiting her aunt, Mrs. Henry Funk, before returning home.

—Mr. Cassius M. Clay, who has been attending the Taft School at Watertown, Conn., returned Saturday to spend his vacation with his mother, Mrs. C. M. Clay, and brother, Mr. John Harris Clay.

—Miss Kate Alexander left yesterday morning for Cincinnati, where she will reside in the future. Miss Alexander will make a study of the life insurance business with the Union Life Insurance Company.

—Miss Lillian Mason, of the county, who has been elected as grammar school instructor at K. C. and B. College, in North Middletown, is taking a summer course at the Eastern Kentucky Normal School at Richmond.

—Among the welcome visitors here last week attended the Epworth League session, were Rev. and Mrs. O. B. Crockett, of Nicholasville. Rev. Crockett was formerly pastor of the Paris Methodist Church, and universally popular.

—Miss Anna Eads Peed entertained a number of friends with a card party at the home of her parents, Mr. and Mrs. D. W. Peed, on South Main street. The occasion was given in honor of Miss Peed's guest, Miss Louise Hunter, of Richmond, Va.

—Mr. and Mrs. Otho Weaver, of San Antonio, Texas, are guests of his brother, Dr. A. D. Weaver, at North Middletown, and sister Miss Anna Weaver, also of North Middletown. Mr. Weaver was there seven years ago and saw his brother, Dr. Weaver, but his sister, Miss Annie, was in the West at the time and missed him. They had not seen each other for 57 years.

An Ordinance

Ordering the Improvement of Main Street, in the City of Paris, Ky., from the South Side of Tenth Street to the North Side of Bank Row, with Bitulithic Paving.

Be it Ordained by the Board of Council of the City of Paris:

Section 1. Main Street in the City of Paris, Kentucky, from south side of Tenth Street to north side of Bank Row, is hereby ordered improved by the removal of the present wearing surface thereon and by the construction of wood, block, or vitrified brick or bitulithic paving upon the present concrete foundation. Said improvement, if bitulithic paving is used shall be made in accordance with the specifications hereinafter provided.

Section 2. The said improvement shall be done at the exclusive cost of the City of Paris, and shall be paid for in cash upon completion and acceptance of the work.

Section 3. Said improvement shall be done in accordance with the following specifications:

SPECIFICATIONS:

The present wearing surface shall be removed from the present concrete foundation, and all material so removed shall be deposited by the contractor at the city quarry or at any other points which may be selected by the Mayor, such points, however, to be no further distance from the point of removal than the city quarry. Upon the present concrete foundation shall then be laid the following wearing surface:

Such wearing surface shall be composed of hard crushed stone, sand and bituminous cement, and shall have the thickness, when compressed, of two inches.

In preparing the mineral aggregate for the above wearing surface the following method and apparatus shall be used:

The several grades and sizes of mineral aggregate shall be accurately measured in proportions previously determined by laboratory tests to give the best results, that is, the most dense mixture of mineral aggregate and one having inherent stability, heated in a rotary mechanical heater, so designated as to keep each batch by itself until heated and then pass into a rotary mixer; or the varying sizes of stone approximately proportioned shall be fed into an elevator terminating and discharging into a rotary dryer, and, after heating, the stone shall be elevated and passed through a rotary screen having sections with various size openings. The minimum screen opening shall be a one-tenth inch, and the maximum shall not be greater than one and one-half inch. The difference in the width of openings in successive sections shall not exceed one-fourth inch in sections having openings smaller than one-half inch, and shall not exceed one half inch in sections having openings greater than one-half inch. The several sizes of stone thus separated by the screen sections shall pass into a bin containing sections or compartments corresponding to the screen sections. From these compartments the stone shall be drawn into a weigh box resting on a multi-beam scale. The several sizes of mineral aggregate, after being separately weighed and measured as above, shall be dropped into a twin pug or other approved form or mixer. In the mixer bitulithic cement shall be added in sufficient quantity to coat all particles and fill such voids as remain unfilled by the proportionment of the mineral aggregate. The aggregate shall be so proportioned as to secure in the aggregate inherent stability, density freedom from voids and resistance to displacement, and a mixture which when combined with the bitulithic cement and compacted together will form a bituminous street pavement structure containing mixed mineral ingredients of such grades as will give the structure inherent stability, and one in which the largest and smallest piece are associated with each other indiscriminately throughout the structure, and in which the plastic bituminous composition permeates the entire mass, uniting the various sized particles thereof; filling the voids and forming the wearing surface. If the crushed stone does not contain finely divided particles to fill the small voids in the aggregate, the deficiency of these finely divided particles shall be made up by the addition of sand or other suitable fine mineral matter.

The mineral aggregate shall be heated and mixed with a bitulithic cement at a temperature consistent with good workmanship. The whole mixture shall be hot enough when reaching the street to be capable of being spread and raked without difficulty, and not so hot as to injure the bitulithic cement.

There shall be spread over the bitulithic surface mixture a seal coat, using per square yard of bitulithic pavement approximately one-fourth gallon of bitulithic cement, into which shall be incorporated approximately twenty-five pounds of mineral aggregate not larger than one-quarter inch diameter. After spreading the seal coat, it shall be thoroughly rolled into the bitulithic surface mixture.

Each layer of the work shall be kept as free as possible from dirt, so that it will unite with the succeeding layer.

The bituminous composition or cement shall in each case be free from water, and shall be especially refined to remove volatile and other matter susceptible to atmospheric influences.

Section 4. The contractor will be required to execute bond with surety to be approved by the Mayor in the penal sum of twenty per cent. of the amount of the contract price for said work, guaranteeing said work against defective workmanship and material, for a period of five years from the date of the completion and acceptance of said work, and agreeing to repair and replace any defects appearing in said street during said period because of any defective workmanship or material.

The contractor will also be required to execute bond to the city with surety to be approved by the Mayor, agreeing to protect and indemnify the city against and from any loss or damage which it may sustain because of any negligence on the part of the contractor.

Section 5. Should it be necessary to repair or replace any part of the present concrete foundation, then the contractor shall be allowed the actual cost of such work, plus fifteen per cent for supervision.

Section 6. The Mayor is hereby directed and authorized to receive bids for the doing of said work on Wednesday, July 8, 1914, and is further directed to advertise for bids for the doing of said work by advertisements in the Kentuckian-Citizen or Bourbon News, newspapers published in the City of Paris, such advertisement to be made in each issue of said paper between the date of this ordinance and the date fixed for the reception of bids.

Section 7. This ordinance shall take effect from and after its passage, approval and publication as required by law.

J. T. HINTON, Mayor.
Attest: J. W. HAYDEN, City Clerk.

SHOWERS OF FLAMING OIL FALL ON TOWN.

After a night of horror the people of Meadowslands, a little mining town near Washington, Pa., renewed their homes, Wednesday, which they had forsaken when it seemed the village would be engulfed by a torrent of burning oil. Twenty-four families, rendered homeless, were camped on the hills. The oil tank was struck by lightning Sunday night. The tank, containing 25,000 barrels, resisted all efforts of firemen, when an explosion scattered the oil, other tanks in the vicinity were threatened. Scores of workmen diverted the flaming fluid in ditches, and the town was saved. It was said the loss would reach \$75,000.

\$12,000 WORTH OF RADIUM LOST ON PHILADELPHIA STREET

A little leather case containing 100 milligrams of radium crystals, valued at \$12,000, was lost in the center of the city of Philadelphia, while being transferred from the Bellevue-Stratford Hotel to the Philadelphia Radium Institute in Spring Garden street, Wednesday. It was lost by Giles M. Mainwaring, manager of the institute, and was a part of a radium collection valued at \$60,000. While the institute safe was being renovated the crystals were kept in the Bellevue-Stratford safe. Mainwaring was carrying the crystals in separate tubes, one at a time, lest by carrying the whole amount he suffer bodily burns.

WHO REALLY DISCOVERED THE NORTH POLE?

Congressional action to determine the priority of the discovery of the North Pole is proposed in a resolution prepared for introduction Tuesday by Representative Smith, of New York. It declares that in view of the questions of scientific, commercial, economic and educational importance involved in the discovery of the North Pole, the unsettled right of United States citizens to participate in the fur, mining and other industries in the far north and the lack of any declaration by the United States Government that an American "reached the North Pole in advance of any other explorer, the Secretary of the Navy is directed to prepare and transmit to Congress a detailed report of his findings in regard to the discovery of the North Pole."

KENTUCKY WOMAN OBTAINS \$26,538 FROM GOVERNMENT.

President Wilson has signed the Cantrill bill providing for the payment of \$26,538 to Mrs. James Harvey Dennis, of Gratz, Owen County. He took this action after the War Department and the Controller of the Treasury approved the measure as it was recently passed by Congress. Following the signing of the bill a Treasury voucher for the amount was sent to Mrs. Dennis, accompanied by a formal notification of its authorization. The Dennis claim is the largest of its kind on record, and had been before Congress for nearly a quarter of a century. It is the outgrowth of contract work performed for the Federal Government on the Tennessee River in 1880 by the late Mr. Dennis. It was allowed by the Court of Claims several years ago, and the bill authorizing its payment had a remarkable legislative record. The measure passed the Senate five times and was adopted eight times by the House at different times. At the instance of Representative Cantrill the bill was adopted by the House five weeks ago, and a short time afterward, by parliamentary jockeying, Senator James forced the measure through the Senate.

COUGHS AND COLDS WEAKEN THE SYSTEM.

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50c bottle of Dr. King's New Discovery to-day. It will stop your cough. The first dose helps. The best medicine for Stubborn Coughs, Colds and all Throat and Lung Troubles. Mr. O. H. Brown, Muscatine, Ala., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50c and \$1.00 at your druggist. (June)

To save the use of collar buttons there has been patented a tape to be passed through the button holes in a collar and shirt, fastening with an ornamental clasp in front.

Five yards of movie film kiss may be fine business, but Mrs. Niver, of the Illinois State Censorship Board, says one yard is plenty.

THEY RAISE THEIR HATS TO THE PRUDENT MAN

THE "PRUDENT MAN" PUTS HIS MONEY INTO OUR BANK, SOME DAY HE WILL HAVE GOOD USE FOR IT.

The man with money in the bank is looked up to, because he can DO things.

And there is just one sure way to have money in the bank—PUT it there. And when you put it there let it STAY there and ADD TO IT every time you can.

And when you get it there don't let some smooth schemer TRICK you out of your hard earned money by leading you into some BAD investment.

Make OUR bank YOUR bank

NINE HUNDRED MILLION
BUSHELS OF 1914 WHEAT.

Have you stopped to think since reading the recent crop report just exactly what 900,000,000 bushels of wheat means?

That's the estimate yield of the United States wheat crop this year. Nine hundred million bushels! That's almost half the world's wheat crop, they say, and is 137,000,000 bushels more than was ever grown here.

Positively staggering are these figures. One might realize after careful thought what 100 or 1,000 or even, by stretching one's imagination, what one million bushels of wheat might look like—but try to imagine nine hundred millions bushels stacked in a heap! It's impossible! Far beyond anyone's comprehension.

Nine hundred million bushels means nine bushels of wheat for every man, woman and child in the whole United States, our population being approximately one hundred million. And nine bushels of wheat would sustain one person for easily a year and perhaps two. We could live until next year after the harvest on our wheat crop alone!

Nine hundred million bushels! That means 200,000,000 barrels of flour, figuring on the usual basis of four and one-half bushels to the barrel. Two barrels of flour for every person in the country.

Nine hundred million! Every good and careful baker figures on approximately 300 loaves of bread from a barrel of flour. Now close your eyes and imagine the pile of bread! From two hundred million barrels of flour there could be made 60,000,000,000 loaves of bread—sixty million loaves!

If it were not for the wheat crop of the United States the world, or a very great part of it, would starve. Much of this wheat is exported. Other wheatless countries must have their bread as well as we.

Of course, there won't be sixty billion loaves of bread from the crop, for much of the grain is used in other ways. Lots of it goes into breakfast food, some is made into whisky, and a great deal will be saved for seed. Besides all the flour, white, grammer and whole wheat, there will be much bran for the use of our four-footed friends.

But for fear you lose sight of that nine hundred million bushels, think of the weight of that enormous crop. If a bushel of wheat weighs approximately sixty pounds the entire production of the United States will weigh 54,000,000,000 pounds!

INDIANS IN DISTRESS.

Forced to leave Mexico, they claim, because their property was confiscated and their property stolen, seventy-five Kickapoo Indians who migrated to the Southern republic from Oklahoma several years ago, Wednesday were camped at the army post in Cleveland, O., awaiting aid from the United States Government.

A girl is usually smart enough to know too much to pretend she does.

NEW AUTOMOBILE LAW.

As the new Automobile Law, which went into effect June 12, has many provisions that are rather rigid we publish a summary of them for the benefit of the motorists. An observance of these regulations will, we believe, make for the happiness and well-being of both automobilists and the public generally.

The law forbids the driving of any vehicle at a speed greater than is "reasonable and proper," any greater being prima facie evidence of unreasonable and improper speed. In closely built-up sections of incorporated cities, ten miles an hour; in residence districts fifteen miles an hour; highways outside of the business and residence sections, twenty miles an hour. On a curve, corner or crossing, where the operator's view is obstructed, eight miles an hour is the limit.

A driver must come to a full stop in passing a frightened horse, or near a street car taking on or discharging passengers. Any city may, however, pass traffic laws that place the speed limits lower than the statute.

The framers of the law were generous in providing fines and equally unselfish in finding acts which can be punished. Some of the law infractions and their penalties are:

Fine of \$10 for fictitious chauffeur's badge.

Fine of \$15 for employer of unlicensed chauffeur.

Fine of \$15 to \$50 for intoxicated operator of motor vehicle.

Fine of \$10 to \$100 for use of fictitious automobile license.

Fine of \$15 to \$100 for person under sixteen who drives car without parent or guardian.

Cancellation of vehicle license for owner who fails to report discharge of chauffeur because of drunkenness.

Two to five years in the penitentiary for taking machine without owner's consent.

Forfeiture of chauffeur's license on conviction for drunkenness.

Fine of \$10 to \$50 for violation of any section not specifically enumerated. This may be augmented by five to thirty days in jail.

The new license prices follow:

For vehicles of twenty-five horse power or less, \$6; between twenty-five and fifty, \$11, and above fifty horse power, \$20. A motorcycle registration fee is \$5.

The examination for chauffeurs to establish their right to licenses are to be held as follows:

Louisville, first Monday in December; Lexington, first Monday in February; Maysville, first Monday in April; Bowling Green, first Monday in July; Paducah, first Monday in September, and Covington, first Monday in May.

Until then the Commissioner of Motor Vehicles at Frankfort, will have the right to issue licenses.

CURES STUBBORN, ITCHY SKIN TROUBLES.

"I could scratch myself to pieces" is often heard from sufferers of Eczema, Tetter, Itch and similar Skin Eruptions. Don't Scratch—Stop the Itching at once with Dr. Hobson's Eczema Ointment. Its first application starts healing; the Red, Rough, Scaly, Itching Skin is soothed by the Healing and Cooling Medicines. Mrs. C. A. Einfeldt, Rock Island, Ill., after using Dr. Hobson's Eczema Ointment, writes: "This is the first time in nine years I have been free from the dreadful ailment." Guaranteed. 50c at your druggist.

OPP. COURT HOUSE

HOT SIZZLERS FROM
BILLY SUNDAY'S SAT.

Billy Sunday in his sermons is especially severe on the society women who do not serve some useful purpose. Pink teas immediately become unfashionable during one of his revivals and bridge parties are for the time forgotten. A feature of his revivals is at least one sermon during the series to women only. Here are a few of the sizzlers that Louisville women will hear when he preaches to them in that city:

If you lay aside your prejudice, you little frizzle-headed sissies, it will help you so you won't make the mistake your ma made.

There are married women who shrink from maternity because they love ease, fine garments and ability to flit like a butterfly at some social function.

There are too many girls who marry for other causes than love.

Some girls marry a young buck to reform him, and they are the biggest fools in the bunch, because he would not marry you to reform you.

You can not work for six dollars a week and wear fine duds and be on the square without having the people suspicious.

I believe the time will come when sexual hygiene will form a part of the high school curriculum.

I believe a good woman is the best thing this side of hell.

The average girl of to-day is turning her home into a gambling shop and a social beer and champagne drinking joint, and her society is made up of poker-players, champagne, wine and beer drinkers, grass widowers and jilted jades and scandal-mongers.

The divorce laws are damnable. I am a Roman Catholic on divorce.

Don't let your actions advertise, "Man Wanted Quick." That's the surest way not to get a man. You might get a thing with breeches on, but he is no man.

For God's sake, don't transfer the love that God gave you or bestow it upon some brindle-nose pup or spitz. The virtue of womanhood is the rampart wall of American civilization.

Society that makes a distinction between the man who does wrong and the girl when she does wrong, is beneath my notice. I would not spit upon it.

NOTICE TO STOCKMEN.

List your stock in M. J. Murphy's monthly combination sales. Plenty of buyers always on hand. We can sell your horses, mules, ponies, cows, cattle, hogs, sheep and poultry at good prices. Next sale will be held on Monday, July 6, county court day. (21ap-tf)

When held up by five highwaymen, in Pittsburg, William Halley thrashed the bunch, received \$2 stolen from him and then called the ambulance and a patrol.

Thieves early Wednesday cut a circular hole in the window of Aaron Bergman's jewelry store, just across from the City Hall, in Cleveland, O., and using a pole, line and hook, fished out \$2,500 worth of jewelry.

An Ordinance

Ordering the Improvement of Main Street, in the City of Paris, Ky., from the South Side of Tenth Street to the North Side of Bank Row, with Bitulithic Paving or Creosoted Wooden Block Pavement Upon the Old Foundation.

[The following ordinance is to take the place of the Ordinance published on page six, which is void.]

Be it Ordained by the Board of Council of the City of Paris, Ky.:

Section 1. Main Street in the City of Paris, Kentucky, from south side of Tenth Street to north side of Bank Row, is hereby ordered improved by the removal of the present wearing surface thereon and by the construction of bitulithic paving, or of creosoted wooden block paving upon the present concrete foundation, the material to be used in the improvement of said street to be determined and selected by the Council upon receipt of bids. Said improvement shall be made in accordance with the specifications for the material to be selected as hereinafter provided, and the present concrete foundation shall be repaired or replaced wherever necessary to place same in proper condition for reception of the paving.

Section 2. The said improvement shall be done at the exclusive cost of the City of Paris, and shall be paid for in cash upon completion and acceptance of the work.

Section 3. The specifications for bitulithic paving herein above referred to are as follows:

SPECIFICATIONS FOR BITULITHIC PAVING.

The present wearing surface shall be removed from the present concrete foundation, and all material so removed shall be deposited by the contractor at the city quarry or at any other points which may be selected by the Mayor, such points, however, to be no further distance from the point of removal than the city quarry. Upon the present concrete foundation shall then be laid the following wearing surface:

Such wearing surface shall be composed of hard crushed stone, sand and bituminous cement, and shall have the thickness, when compressed, of two inches.

In preparing the mineral aggregate for the above wearing surface the following method and apparatus shall be used:

The several grades and sizes of mineral aggregate shall be accurately measured in proportions previously determined by laboratory tests to give the best results, that is, the most dense mixture of mineral aggregate and one having inherent stability, heated in a rotary mechanical heater, so designated as to keep each batch by itself until heated and then pass into a rotary mixer; or the varying sizes of stone approximately propor-

tioned shall be fed into an elevator terminating and discharging into a rotary dryer, and, after heating, the stone shall be elevated and passed through a rotary screen having sections with various size openings. The minimum screen opening shall be a one-tenth inch, and the maximum shall not be greater than one and one-half inch. The difference in the width of openings in successive sections shall not exceed one-fourth inch in sections having openings smaller than one-half inch, and shall not exceed one-half inch in sections having openings greater than one-half inch. The several sizes of stone thus separated by the screen sections shall pass into a bin containing sections or compartments corresponding to the screen sections. From these compartments the stone shall be drawn into a weigh box resting on a multi-beam scale. The several sizes of mineral aggregate, after being separately weighed and measured as above, shall be dropped into a twin pug or other approved form or mixer. In the mixer bitulithic cement shall be added in sufficient quantity to coat all particles and fill such voids as remain unfilled by the proportionment of the mineral aggregate. The aggregate shall be so proportioned as to secure in the aggregate inherent stability, density freedom from voids and resistance to displacement, and a mixture which when combined with the bitulithic cement and compacted together will form a bituminous street pavement structure containing mixed mineral ingredients of such grades as will give the structure inherent stability, and one in which the largest and smallest pieces are associated with each other indiscriminately throughout the structure, and in which the plastic bituminous composition permeates the entire mass, uniting the various sized particles thereof; filling the voids and forming the wearing surface. If the crushed stone does not contain finely divided particles to fill the small voids in the aggregate, the deficiency of these finely divided particles shall be made up by the addition of sand or other suitable fine mineral matter.

The mineral aggregate shall be heated and mixed with a bitulithic cement at a temperature consistent with good workmanship. The whole mixture shall be hot enough when reaching the street to be capable of being spread and raked without difficulty, and not so hot as to injure the bitulithic cement.

There shall be spread over the bitulithic surface mixture a seal coat, using per square yard of bitulithic pavement approximately one-fourth gallon of bitulithic cement, into which shall be incorporated approximately twenty-five pounds of mineral aggregate not larger than one-quarter inch diameter. After spreading the seal coat, it shall be thoroughly rolled into the bitulithic surface mixture.

Each layer of the work shall be kept as free as possible from dirt, so that it will unite with the succeeding layer.

The bituminous composition or cement shall in each case be free from water, and shall be especially refined to remove volatile and other matter susceptible to atmospheric influences.

Section 4. The specifications for creosoted wooden block pavement

herein above referred to are as follows:

SPECIFICATIONS FOR WOODEN BLOCK PAVEMENT.

The present wearing surface shall be removed from the present concrete foundation, and all material so removed shall be deposited by the contractor at the city quarry or at any other points which may be selected by the Mayor, such points, however, to be no further distance from the point of removal than the city quarry. Upon the present concrete foundation shall then be laid the following:

MORTAR BED.

1. The concrete foundation must be wet by sprinkling just previous to laying the mortar bed upon it.

2. The mortar bed, at least one half (1/2) inch thick will be laid upon the concrete foundation. It will be composed of one part Portland cement and three parts sand or screenings, both of the qualities specified for use in the concrete foundation, together with the least amount of water needed for the best results. It must be thoroughly mixed and thickly spread, rammed or struck off to a true surface. No mortar shall be laid nor wood blocks placed in their final position later than 30 minutes after the mortar is mixed.

3. The wood block pavement layer shall be 4 inches thick as required by the traffic and conditions of the street and constructed of materials and in the manner hereinafter specified.

4. The wood from which the blocks are made shall be regular sound commercial merchantable long leaf yellow pine, which shall be well manufactured, saw-butted, free from large, coarse knots or very coarse grain, and free from the following defects: Unsound, loose and hollow knots, worm holes, knot holes, through round or other objectionable shakes, wane, bark, incipient of other decay.

5. No dead or second growth timber will be accepted and all timber shall be cut in a locality recognized as producing the timber specified. The number of annual rings shall average not less than six (6) per inch measured radially. All timber shall be well air seasoned. The City Engineer or his inspector may at any time reject in bulk all timber that does not fulfill these specifications. The contractor shall give the City Engineer at least twenty days notice in writing the time and place of the beginning of cutting or treatment of blocks.

6. The paving blocks, cut from wood or lumber above specified, shall be well manufactured, truly rectangular and uniform. They shall be dressed on one side. The top and bottom both shall be evenly and smoothly sawn. No blocks shall vary in width and depth more than one sixteenth of an inch (1/16) from others used on the same street or contract. The depth shall be four inches in thickness. The length shall not be less than six (6) nor more than ten (10) inches and shall average eight (8) inches long. The width shall not be less than three (3) nor more than four (4) inches, provided that all blocks used in one street or contract, shall be of the same width. The blocks shall average at least 75 per cent. of hard wood, and no block will be accepted that has less than 60 per cent. of hard wood.

7. The blocks shall be treated, pre-

served or creosoted as hereinafter specified, and each block shall contain at least 20 pounds of creosote oil per cubic foot of wood, or when a block contains much natural pitch it shall receive as much creosote as can be forced into it by the same process and pressure as is used in the treatment of the blocks of the same kind of wood which will receive 20 pounds of creosote oil per cubic foot.

8. The creosote oil shall be a dead oil of pure coal tar or wholly a pure coal tar product. It shall not contain more than three per cent. of water, and if it does contain this amount of water a corresponding correction must be more than three per cent. of of waer, and if it does contain this amount of water corresponding correction must be made so that an equivalent additional amount of creosote is forced into the blocks. It shall contain only traces of Acetic and acetates. Its specific gravity at one hundred degrees (100 degrees) F. (38 degrees Cent.) shall be at least 1.05 and not more than 1.10 so as to assure it thoroughly penetrating the wood blocks. The residue insoluble distillation with benzol and chloroform must not exceed 3 per cent. of the weight of the creosote oil. Fractional distillation of 100 grams of the creosote oil shall produce of dry oil by weight within the following limits:

Up to 150 degrees C. (302 degrees F.), not to exceed 2 per cent.

Between 150 degrees C. (302 degrees F.) and 170 degrees C. (338 degrees F.), not to exceed 1.5 per cent.

Between 170 degrees C. (338 degrees F.) and 235 degrees C. (455 degrees F.), not to exceed 35 per cent.

Between 235 degrees C. (455 degrees F.) and 300 degrees C. (572 degrees F.), not to exceed 35 per cent.

The residue remaining shall be soft and adhesive. The creosote oil shall contain about 25 per cent. of crystallizable naphthalene and at least 15 per cent. anthracene oils. At least 95 per cent. of the creosote oil shall be soluble in carbonbistulphide and equally in absolute alcohol. The manner and methods of testing creosote oil shall be subject to the approval of the City Engineer.

9. The wood blocks, after being cut and ready for treatment, shall be placed in a suitable iron receptacle or cylinder and there sterilized with dry steam under a pressure of at least 30 pounds and not to exceed 50 pounds per square inch during at least three hours and as much longer, not to exceed 7 hours, as the conditions of the wood and the season of the year requires. The temperature within the cylinder during the process the condensed steam, sap and other liquid matter shall be drawn from the receptacle by means of valves. At the completion of the steaming process all condensed steam and other fluid matter shall be blown from the cylinder through an opening in its bottom, and the steam shall be caused to pass out through an opening in the top.

10. The draining and exhaust valves of the cylinder shall then be closed and a vacuum pump shall immediately produce, as quickly as possible, a vacuum of at least 24 inches and as much more as may be necessary, and maintained in the cylinder until moisture and gases cease to come from the cylinder. During this process the wood blocks within the cylinder shall be kept hot by means of steam coils within it.

11. Immediately thereafter and while the vacuum exists, the creosote oil at a temperature between 180 degrees F. and 200 degrees F. shall be run into the cylinder and forced and maintained under such pressure that the wood blocks shall absorb and be impregnated with creosote oil to the amount required by Section 23 above. The excess of creosote oil in the cylinder shall then be withdrawn, the blocks drained and prepared for shipment.

12. The blocks ready for use must meet the indentation test pressure made as follows: The blocks to be tested are first dried at 100 degrees F. during 12 hours. Then a polished steel die 1 inch square on its lower face, square edges, corners and perpendicular sides, is placed on a dried block firmly supported in a compression testing machine. A pressure of 8,000 pounds is applied quickly and maintained exactly one minute. The die must not descend and indent the block more than one-eighth of an inch. The measurements are to be taken from when the die is lightly pressed against the block to the instant the 8,000 pounds pressure has been applied one minute. The die is placed anywhere within one-half (1/2) inch of the edges of the block and so as to compress lengthwise the wood fibres.

13. The wood blocks shall be inspected by the City Engineer at the place of manufacture or on arrival in the city where they are to be used or when piled adjacent to the street to be paved. All blocks not in conformity with the requirements of these specifications will be rejected and must be removed from the locality of the pavement to be laid.

14. The wood blocks are to be laid upon the mortar bed immediately after the bed is ready to receive them. The blocks are to be laid with close joints and at right angles to the curbs except otherwise directed by the City Engineer, and in uniform course, and so that all longitudinal joints shall be covered by a lap of at least three (3) inches. No closure or end blocks shall be used which are less than three (3) inches long. The paving blocks shall be jointed up to the car tracks and rails as directed by the City Engineer.

15. The blocks shall be laid in slight contact, and shall be properly rolled or rammed to a firm bearing and uniform surface.

16. No rolling or ramming shall be done within ten feet of the surface where blocks are being laid. All blocks which are broken, split, or otherwise damaged or defective or displaced shall be removed immediately after rolling or ramming and replaced with sound blocks.

16. After the blocks have been laid and properly rammed, their joints for a space of three feet wide adjacent to and parallel with each curb shall be filled completely full of hot bituminous cement filler as hereinafter specified. All other joints between the blocks shall first be filled

half full of said hot bituminous filler. Said filler shall be of a temperature to flow quite freely and it shall be thoroughly swept and rubbed into said joints with approved hand squeegees until all the bituminous filler is cleaned from the surface of the pavement. The entire surface of the pavement shall thereon be dressed off and all joints shall be completely filled with clean, coarse perfectly dry sand and so as to leave a uniform layer thereof one-half inch (1/2) inch thickness all over the entire surface of the pavement.

17. Expansion joints shall be constructed between the curbs and the wood paving blocks to provide for the possible expansion and contraction of the blocks by heat or cold or otherwise. These expansion joints shall be constructed from three-quarter (3/4) inches wide, according to the width of the street as directed by the City Engineer, and shall extend the whole depth of the blocks, and shall be filled with a suitable bituminous paving joint cement acceptable to the City Engineer. Expansion joints of any required width shall be constructed at such other locations as the City Engineer may direct. Expansion joints must be completely filled with suitable strips of wood previous to filling the joints with the paving joint cement. The filler for the expansion and all other joints shall be regular Coal Tar Pitch or other approved bituminous cement that the City Engineer considers equally as good. In absence of instructions to the contrary, the pitch filler shall be of straight coal tar run to a melting point of 125 degrees-140 degrees F., carrying not less than 25 per cent. nor more than 35 per cent. of free carbon. Brittle point to be 15 degrees F.

Section 5. The contractor will be required to execute bond with surety to be approved by the Mayor in the penal sum of twenty per cent. of the amount of the contract price for said work, guaranteeing said work against defective workmanship and material, for a period of five years from the date of the completion and acceptance of said work, and agreeing to repair and replace any defects appearing in said street during said period because of any defective workmanship or material.

The contractor will also be required to execute bond to the city with surety to be approved by the Mayor, agreeing to protect and indemnify the city against and from any loss or damage which it may sustain because of any negligence on the part of the contractor.

Section 6. The Mayor is hereby directed and authorized to receive bids for the doing of said work on Thursday, July 16, 1914, and is further directed to advertise for bids for the doing of said work by advertisements in the Kentuckian-Citizen or Bourbon News, newspapers published in the City of Paris, such advertisement to be made in each issue of said paper between the date of this ordinance and the date fixed for the reception of bids.

Section 7. This ordinance shall take effect from and after its passage, approval and publication as required by law.

J. T. HINTON, Mayor.

Attest: J. W. HAYDEN, City Clerk.

A Great Opportunity

For Buying High Grade

SUMMER FOOTWEAR

Shoes, Oxfords and Pumps For All Occasions!

We cannot fully impress upon you the splendor, the diversity of styles and magnitude of the great values we are offering. It is absolutely necessary for you to be here and be convinced of the great bargains.

Ladies' Colonial Pumps, of elegant Patent Colt or Soft Dull Kid, genuine \$4.00 values, at.....\$2.99 and \$2.49

Ladies' White Canvas Mary Jane Pumps and Oxfords, genuine \$3.00 values at \$1.99 and 1.49
